

MAJ OKRIKRI

Data Analyst | SQL | Tableau | Excel | Power BI
Brandon, MB | 204-441-3964 | majiri_ok@yahoo.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Freelance Data Analyst with a B.Sc. in Computer Science and hands-on experience delivering end-to-end analytics for small and mid-sized businesses. Skilled in SQL, Tableau, Excel, and Power BI. Proven ability to build interactive dashboards, automate reporting, and translate complex data into clear, actionable recommendations for both technical and non-technical stakeholders.

CORE COMPETENCIES

Analytics: EDA, Customer Segmentation, RFM Analysis, KPI Tracking, Churn Analysis, Supply Chain Analysis
Tools: SQL, Excel (PivotTables, Advanced Formulas), Tableau, Power BI, Python, PowerPoint
Skills: Dashboard Design, Reporting Automation, Data Storytelling, Stakeholder Communication, Process Improvement

PROFESSIONAL EXPERIENCE

- Freelance Data Analyst** | *Upwork* Jan 2025 - Present
- Delivered end-to-end analysis projects using SQL and Tableau on datasets of 10,000 to 15,000+ records, enabling data-driven decision-making for small and mid-sized businesses.
 - Designed interactive dashboards and automated reports tracking 10 to 20 KPIs per client, reducing manual reporting effort by 40%.
 - Conducted EDA to surface trends, anomalies, and performance gaps, translating findings into actionable recommendations across operations, marketing, and customer service.
 - Collaborated with stakeholders to define requirements, success metrics, and deliverables, consistently meeting deadlines and maintaining strong client satisfaction.
- Shipper, Warehouse Operations** | *Saputo Inc.* Aug 2018 - Present
- Maintained a 99% shipment accuracy rate processing 30+ orders per shift, applying the same attention to detail and quality checks used in data validation.
 - Utilized warehouse management software to track inventory, process orders, and generate documentation, contributing to a 30% improvement in operational efficiency.
 - Applied FIFO inventory principles and analyzed order volume patterns to flag discrepancies and support informed operational decisions.

FEATURED PROJECTS

- Customer Segmentation - SQL:** Applied RFM framework to classify customers by purchasing behavior, delivering recommendations to improve retention and marketing targeting.
- Supply Chain Analysis - Excel:** Used PivotTables and data visualization to identify bottlenecks and inefficiencies, producing recommendations to improve operational efficiency.
- Travel Analytics Dashboard - Tableau:** Analyzed traveler demographic and behavioral data; built a management dashboard and slide deck to guide marketing strategy and product positioning.
- Telecom Churn Analysis - Tableau:** Identified key churn drivers by comparing churned vs. retained customers; built a Tableau dashboard to support data-driven retention strategies.

EDUCATION

Bachelor of Science - Computer Science | *Brandon University* Graduated 2023
Brandon, Manitoba | Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering
